

The Lane Construction Corporation considers the safety of our employees, joint venture partners, subcontractors, and the general public to be a matter of prime importance. Our ability to consistently achieve a world-class safety record is upheld by our team approach to safety training, engagement of workers at every level, a focus on occupational health, and a deep commitment to Lane's outstanding 4 Seconds for Safety program. Our project managers, supervisors, and safety professionals lead by example to inspire all team members to live and work by a code of conduct that ensures the safety and well-being of all.

Lane aspires to provide a healthy and safe place of employment for all employees. We are guided by sound construction practices as necessary for location and circumstances and abide by all relevant Federal, State and local regulations. It is expected that each individual working for Lane adopts and embraces the values and practices of our culture of Safety, and acts in a way that supports their team, prevents incidents and injuries, and strengthens a healthy work environment free from harm or hazard. We must all work together to incorporate these procedures and policies into our operations as we strive to achieve our ultimate target of zero incidents.

Mark A. Schiller, President & Chief Executive Officer
